

Honey Extractor Policy

The following is the Honey Extractor Use Policy for members of the Orange County Beekeepers Association.

Description: The extractors are a hand-cranked radial model with a detachable base and accommodates 9 shallow or medium frames or 3 deep frames tangentially and a two frame plastic tangential model.

Associated Equipment: Optical refractometer and a 5 gallon filtering system including: cappings tank and lid, 2 filters and bucket with gate valve, cappings scratcher, hot cappings knife and cold cappings knife. Additionally, there is a binder containing a listing of the equipment and Extractor Check-Off Sheets.

Duration: The honey extractor and associated equipment can be reserved for a maximum of 4 days.

To Reserve the Extractor: Visit the OCBA Website (theocba.org) Resources Page, Extraction Equipment Rental section and follow the instructions there to reserve the equipment. The Extraction Equipment Coordinator will respond confirming the request and with information concerning how to obtain the equipment.

Transfer of the Extractor and Accessories: When you receive the equipment, you will go over the Extractor Check-Off Sheet with the person releasing the equipment to you. You will confirm the presence of all equipment. Upon return of the equipment, you will go over the Check-Off Sheet once again with the person receiving the equipment. Any missing equipment will be the responsibility of the person returning the equipment. That party will be expected to locate or replace any missing parts. If any equipment is in poor repair, please be sure to mention that to the person receiving the equipment so that OCBA can make repairs or replacements as needed.

Rental Fee and Payment: The charge is \$5.00 per day for use of the extractor for up to 4 days **for OCBA members only**. A day is defined as 24 hours. The member must be a member in good standing no later than March 31st of the current year. Cash payment or a check made payable to Orange County Beekeepers' Association should be given to the OCBA member accepting the return of the equipment. Additionally, a \$40.00 dollar deposit will be required. It is suggested the renting party write a check to OCBA for the deposit amount.

Failure to clean the equipment or return it on time will result in losing the privilege to rent the equipment in addition to the loss of the deposit. Please respect your fellow members by helping us maintain the integrity and availability of this extractor and its associated equipment. Abuse of this policy may result in loss of extractor privileges for next year

The extractor should be cleaned thoroughly after each use.

1. Thoroughly rinse out any residual honey and wax. Remember this equipment is used for processing food for human consumption. Keep it clean.
2. If the water is determined to be potable (would you drink it?), a coin-operated car wash may be used to thoroughly rinse the extractor.
